## WHERE GOOD IDEAS GO TO GREAT USE.

Sharing ideas at seminars, lectures and other gatherings presents a communications challenge. Panasonic Panaboard solves this problem with a full line of highly visible, electronic whiteboards. With thermal printer, optional laser printer and computer interface capabilities, materials can be distributed to the audience in seconds. You can store, fax, e-mail or network them by computer.

### Slim Modular Design

- Paper tray holds 80 sheets of Paper
- Roll of thermal transfer film prints approximately 300 pages
- Confidentiality when printing because a special coating is placed on the film that prevents it from being photocopied

## Features and Benefits

- Panaboards come with an integrated printer for easy thermal printing with multiple copies.
- With the optional Printer Interface Board, Panaboard can print from a laser printer.
- Increases audience attention and participation.
- Helps presenters give clear notes on the meeting to everyone, increasing efficiency and reducing meeting time.
- All models can be wall-mounted or used with an optional stand.
