Cooling Capacity: 2,045 kW / 581 USRT

Indoor Units:

Wall Mounted: 7 units

Low-static ducted: 20 units

4-Way Cassette: 250 units

Control System:

Wired remote controller: 277 units

Words from the installer:

Modern high-end office buildings demand high-end comfort, and that includes air quality. For this project, we opted for a sophisticated Panasonic ECOi VRF system to comprehensively fulfil all of the installation requirements. We used a wide array of different indoor units that deliver significant energy savings and that can be controlled centrally. The government client was highly satisfied with the solution.
