P-AIMS Central Controller: 1 system

Wired Remote Controller: 116 units

This Travelodge Hotel is located in the historic part of Hobart, close to the city's top tourist attractions. The hotel is owned by the Toga Group, an Australia-based group of companies specialising in property development, construction, investment, and management. When Toga decided to upgrade the hotel's conventional split-type air conditioning, a number of VRF suppliers offered solutions. But in the end the owners opted for a sophisticated solution proposed by Panasonic Australia.
