Peace of mind stimulates business

Dongguan Bank is a well-known bank in the Pan-Pearl River Delta Economic Zone. Hence, its branches deal with a large number of customers on a daily basis and handle various business needs. Maintaining good air quality is exceptionally vital during the epidemic. When ziaino™ is in operation, air quality and cleanliness are significantly improved. The faint hypochlorous acid smell released from the machine signals to the customers that ziaino™ is currently protecting them and inhibiting viruses for them. Reassured, more customers are willing to be onsite and more business can be done smoothly, benefiting both the bank and its customers.
