

Panasonic

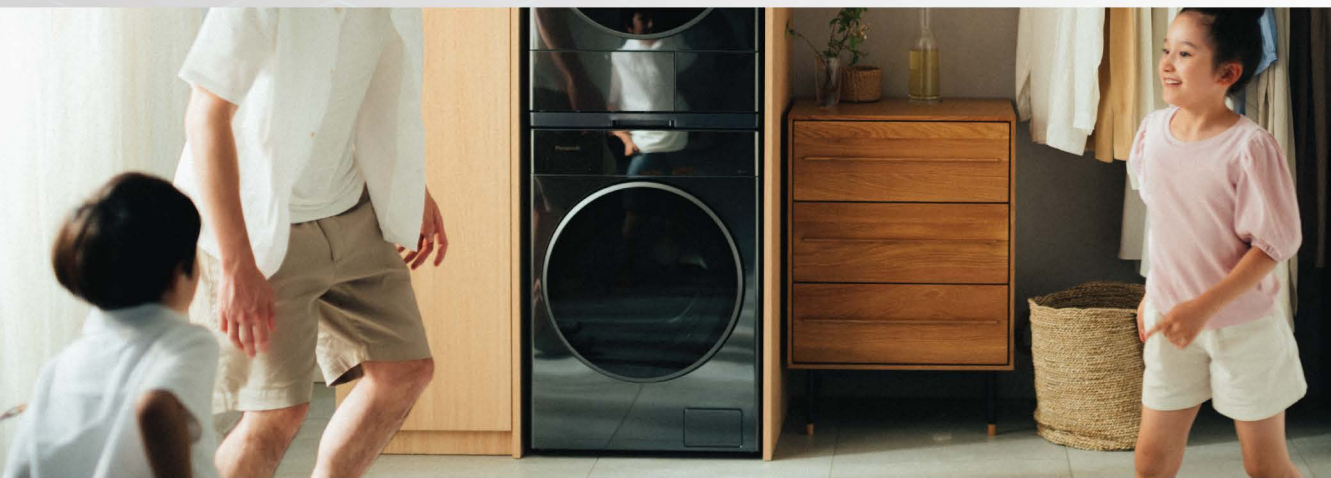

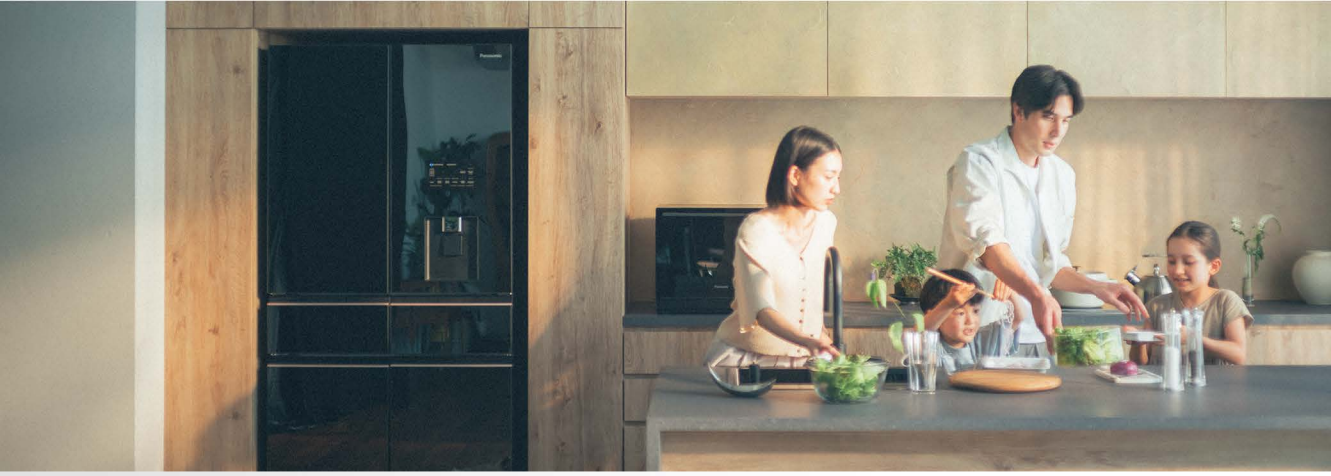

A CENTURY OF TRUE JAPANESE EXCELLENCE

JAPAN QUALITY
TRUSTED FOR OVER 100 YEARS

Create Today. Enrich Tomorrow.

Panasonic

Japanese Excellence Brought to Life by Panasonic

1918 marks the start of true Japanese excellence brought to life in every household.

For over a century, Panasonic has been guided by the Japanese values of *Omotenashi* and *Mottainai*, enabling the brand to provide innovative, reliable, and durable appliances year after year.

Driven by *Omotenashi*, Panasonic employees conduct extensive research to continuously improve each product, ensuring that everything is designed with you in mind that comes with great care and thoughtful hospitality.

With *Mottainai* in mind, Panasonic practices sustainability from production to delivery, to ensure that our products help you and future generations live your best lives without compromising the environment.

Today, 57 years after establishing the brand in the Philippines, Panasonic has continued this tradition of providing Japan Quality home appliances designed to elevate and add a touch of excellence to Filipinos' lifestyles.

”

Improving people's lives through creating goods needed for society or through providing wholehearted services are vitally important. After all, business is ultimately for the betterment of our society.

**- Konosuke Matsushita,
Founder, Panasonic**

Air Conditioning

nanoe™ X 

nanoe™ X, developed by Panasonic, uses water particles filled with hydroxyl radicals to purify the air. These radicals are highly reactive, helping to neutralize odors, viruses, and bacteria. Unlike regular hydroxyls, those in nanoe™ X last longer because they are stabilized in water, making them more effective.

hydroxyl radicals

Panasonic has spent over 20 years perfecting this technology.

nanoe™ X reaches pollutant Hydroxyl radicals denature pollutant proteins Pollutant is inhibited

GOLD

INVERTER HIGH CSPF RATING

Panasonic's Inverter reduces power consumption by varying the speed of the compressor according to the temperature changes with the aim of minimizing the temperature fluctuations so you can enjoy consistent cooling comfort.

25% COOLER FASTER **iAUTO-X** **HUMIDITY SENSOR**

Panasonic's new iAUTO-X with the Humidity Sensor constantly monitors and adjusts relative humidity levels to below 60% for an optimal sleeping environment, so you can enjoy better sleep with comfortable cooling.

*2 Comparison of iAUTO-X Mode & normal COOL mode by using 1.5HP

UP TO 20% ENERGY SAVING **AI ECO**

ECO Mode with A.I. Control efficiently cools your room based on the amount of contained heat load. It finds the perfect ECO balance between power consumption and time taken to reach the desired temperature to maintain your comfort with minimal energy waste.

*1 Comparison of ECO Mode & normal mode by using 1.5HP Inverter Model

ANTI-BACTERIAL FILTER

The filter combines anti-bacterial, anti-virus, and anti-allergen protection, deactivating up to 99% of filter-captured bacteria*, viruses** and allergens***, ensuring that clean air is delivered to the room.

*Bacteria deactivation was certified by Boken Quality Evaluation Institute. Test Report No: 10042459-1 and 10042459-2; Bacteria: Staphylococcus aureus; NBRC 12732; Escherichia coli NBRC 3972
Virus deactivation was certified by Osaka Prefectural Institute of Public Health; Test Report No: 313360397; Virus Influenza (H3N2) A/Hong Kong *Allergen deactivation was certified by Shinshu University; Allergen: Cider Pollen Allergen Cry 1

SLEEP MODE
POWERFUL MODE

The Sleep Mode function reduces electricity consumption as temperature increases for the first two hours and turns off up to the time set for a comfortable sleep. The Powerful Mode provides instant cooling boost when you need it the most.*1

*1 Sleep Mode & Powerful Mode applies on Inverter and Deluxe models.

HIGHER COOLING CAPACITY
R32 COMFORT COOL
REDUCE ENERGY COST **ECO FRIENDLY**

R32 refrigerant represents innovation in every way. It is an excellent heat transfer medium which leads to greater energy efficiency and cost effectiveness. R32 refrigerant also has low global warming potential, hence it's friendlier to the environment.

INSIDE CLEANING ON DEMAND

Newly improved inside cleaning on demand provides the convenience to activate this function on a need basis. Inside cleaning works inside of an indoor unit by removing moisture and releases nano™ X to inhibit various pollutants. Improved cross flow fan with anti-dust coating prevents dust adherence.

By Remote Controller or Comfort Cloud App:

Press nano™ button over 3s after turning off AC for cleaning. Activate inside cleaning by tapping 'Inside Clean' after turning off AC.

JAPAN QUALITY
TRUSTED FOR OVER 100 YEARS

*Testing organization: Kitasato Research Center for Environmental Science (General Incorporated Foundation), KRCE—Bio, Test Report No. 2019_0188. Test method: After releasing floating bacteria (1 type) in a 400 L chamber, the number of bacteria in collected air were counted. Bacteria inhibition method of nanoTM X. Test results: With nanoTM X, after 50 min, 99.99% more of bacteria inhibited. Does not guarantee the prevention of food poisoning.
** Test Organization: TECHNOSCIENCE Corporation, Certificate No. 20200703-001. Tested Pesticides: Dinocroazole and Acypridinol. Test Method: After 3 days exposure with and without nanoTM X, and after a rinse with water. Test Conditions: In a 600 L square box, temperature of 5°C, humidity of 60%, with nanoTM X repeatedly ON for 20 min/OFF for 40 min. Test process: 1) Pesticide applied to a 6.0 cm dish. 2) Dish placed in 400 L box. 3) After 3 days, dish washed with water. 4) Residue of pesticide on the dish checked. 5) Analysis with LC/MS. Test Results: Dinocroazole reduced by 77.2%, Acypridinol 64.6% without nanoTM X. Acypridinol reduced by 97.3% with nanoTM X. 12.5% without nanoTM X. The effect differs depending on the type of pesticide.
** Test Laboratory: Panasonic in-house data. Test Report Number: 1V332-180118-K01. Test method: Verification using a sealed odor intensity index. Tested odour: Trimethylamine on the bleached cloth was left inside 400L box for 8 hours in an environment with and without nanoTM X. Odour intensity was measured by 15 panels. Test result: odour intensity was 1.9 in an environment with nanoTM X, odour intensity was 3.2 in an environment without nanoTM X.

CARE⁺ EDITION

Mindful Cleaning. Effortless Living.

A Lifelong Partner for Your Home

Set personalized wash settings and receive notifications about your wash status even when you are away from home. Easily troubleshoot and maintain your CARE+ Edition washer dryer with detailed instructions to keep them running efficiently.

Better washing with
AI SMART WASH

Intelligent sensors automatically detect laundry load size & weight to adjust washing performance by selecting a wash mode with the right amount of water and duration to provide a clean, efficient wash with minimal energy use.

Eliminate 99.99%*1 of Bacteria with Cold Wash

Blue Ag+ technology provides a powerful antibacterial effect using UV light and Ag ions, eliminating bacteria without hot water*2.

*1 As certified by the Institute of Biotechnology (Vietnam-/No:270324.2TN/VCCM) / Bacteria Elimination rate: 99.99% Escherichia coli 99.99% Staphylococcus aureus / *Test conditions apply / *Report Issue Date: 27th/March/2024

*2 Effective for loads up to 3kg.

Washing Machine

AutoGasketClean

Auto Gasket Clean*³ uses two jet sprays together with Ag+ ions and UV light to eliminate 99.99%*⁶ of bacteria, remove detergent residue and lint, and prevent mold growth*⁷ to ensure a cleaner door gasket.

*³ Only available for FW and FA series

*⁶ As certified by the Institute of Biotechnology (Vietnam/No: 290524.1TN/VCCM) / Bacteria Elimination rate: 99.99% Escherichia coli / *Test conditions apply / *Report Issue Date: 29th/May/2024

*⁷ As certified by the Institute of Biotechnology (Vietnam/No: 290524.3TN/VCCM) / Anti Mould Growth result: Aspergillus Niger mould does not grow for 3 days / *Test condition apply / *Report Issue Date: 29th/May/2023

AutoTubClean

Auto Tub Clean*⁴ memorizes the last wash settings to wash away residue. Combined with UV light, it keeps the tub hygienic and clean by reducing mold growth*⁸ and foul odors.

*⁴ Only available for FW and FA series

*⁸ As certified by the Institute of Biotechnology (Vietnam/No: 161023.1/VCCM) / Anti Mould Growth result: Aspergillus Niger mould does not grow for 3 days / *Test condition apply / *Report Issue Date: 16th/Oct/2023

AutoDose

AutoDose*⁵ dispenses the right amount of detergent or softener for each load, eliminating guesswork and waste. The level indicator shows when to refill, ensuring up to one month*¹¹ of hassle-free washes.

*⁵ Only available for FW series

*¹¹ AutoDose is available for all programmes except Tub Hygiene. Wash up to 1 month with an average of 3-4 loads a week. Results may vary depending on the wash load and settings.

StainMaster+

Easily handle stubborn dirt and allergens!

StainMaster+ washes away a variety of stains, bacteria, and allergens to keep clothes clean through optimized wash programs selected with just the touch of a button.

ActiveFoam SYSTEM

Ideal wash results in less time via fine foam.

ActiveFoam System creates fine, high-density foam before the wash cycle starts. This foam quickly penetrates clothes to lift, separate, and remove dirt deep in fibers for extra clean results.

Nose Hair Trimmer

SRP: 1,550

- Wet / Dry Washable
- With Vacuum System
- Battery-operated
- Sharper 60° Inner Blade with Suction Power

ER115

Nose-Ear Hair Trimmer

SRP: 750

- Spinnet Blade
- Wet / Dry Washable
- Battery-operated

Electric Works

WIRING DEVICES

WSAG5511-5 + WSAG6803-1

Slimart Switch

- Wide Switch
- Smooth switching mechanism
- Resistant material withstands color fading

Available Colors: Snow White Metallic Gray Metallic Black

DUFS1270STH-1

Floor Outlet Shallow Type

- Secure, stable, and durable protective cover
- Shallow depth installation
- Highly recommended home and office use

BQDT11211-PH

MCB Box Flush Mounted

- Clear cover
- Compliant with IP performance
- Heat resistance up to 650°C
- Ground terminal with insulating cover
- Water level gauge that supports horizontal construction (16-36 Modules)
- Locked cover system
- With Busbar included

BBD2202CHTB

MCB 10kA 2P2E 20A C Type

- Clear ON/OFF Indicator
- Compliant with IEC standards
- Compliant with RoHS Directive

WCHG24332W-5

Extension Cord with Safety Shutter and Breaker

- With Safety Shutter to Prevent Electric Shock
- With Built-in Breaker
- Uses Heat Resistant Plastic for Cover
- With 2 Available Colors (Black and White)

Available Colors: White Black

Better life everywhere
with eco-conscious and
Japan Quality solutions.

Bring environment-friendly living spaces that focus on the well-being of the people and society to many construction fields globally.

LIGHTING

NNV50150WE1A

Downlight

- 6W
- 480 lumens
- 20,000 life hours

Aesthetics Meets Performance

Apt For Commercial and Industrial Application

AE14H550VHC10B

550 Watt Mono Perc 144 Half-Cell Solar Module

- Special 10 Busbar Design
- IP68 Rated Junction Box
- 2278mm (L) x 1134mm (W) x 30mm (T) | 27.5 kilograms per module | 21.3% Efficiency
- 12 Years Product Warranty
- 25 Years Linear Performance Warranty

Special Cell Design

10 BB design decreases the distance between bus bars and finger grid line for power increase. Half-cell reduces internal losses to increase module efficiency.

SECURITY SOLUTION

2000

EBLOne Fire Alarm Control Panel

- One Loop Panel w/ 253 alarm point
- 7" Color Touch Screen
- Commissioning directly on screen without using PC
- Auto Addressing of devices
- Compact Design
- Up to 34AH Backup Battery

SH28455911PH

Smoke Alarm with Voice Notification

- Clear and easy-to-understand "alarm voice"
- Long-life battery of up to 10 years
- Detecting Method: Smoke Type (Photoelectric Method)
- Alarm volume 84 dB or more at 1 m distance from equipment

Panasonic KNX
Home Automation System

- Smart Home Functions
- Scene Functions
- Intercom Integration
- Alarm and Security

Scan to learn more about Panasonic KNX

- Reliable, eco-friendly
- smart solutions for professionals.

Panasonic contributes to efficient shop management and to maintaining freshness of goods with high quality and reliable industrial-grade products that fit various types of locations and shops.

MADE IN JAPAN

*1 Made in Japan claim applies on K Series commercial upright freezer / refrigerator.

RESTAURANT

SRR-K1281
Made in Japan, Commercial Refrigerator & Freezer

- Made in Japan
- 38 cu ft
- Inverter Compressor
- Econavi Intelligent Eco Sensors
- Excellent Cooling Performance
- Keeps Food Fresh, Longer
- Anti-bacterial Treated Handle, Shelves and Door Packing

NE-1853LDK
Capacity: 18.0 L
Commercial Microwave Oven

- 1800 W of Cooking Power
- Compact Size, Heavy-duty Performance
- 15 power levels & 5-stage cooking
- Dual Power feed for more consistent even cooking
- Energy Efficient LED lighting and LCD display
- Easy extension pad +10s / +20s heating

CONVENIENCE STORE

SAR-375V(E) P
Capacity: 396.0 L
3ft Open showcase with Sliding Glass Door

- R404a
- LED
- 6 Layers
- Two layer glass
- Auto Closing Function with Door Handle

SBC-CD2BPHW
Capacity: 1060.0 L
2-Door Beverage Chiller

- 37.4 cu ft
- Overall Dimensions: 1185x767x2061 (WxDxH) mm
- Refrigerant: R134a
- Temperature Range: 0°C to 7°C
- Power Supply: 220 V / 1 ph / 60 Hz

SUPERMARKET

FLD-EXC Series
Glass door freezer/chiller

- L: 1552/2328/3104/3880 mm
- W: 978mm x H: 2000m
- All metal exterior, soft lines
- Micro-computer digital controller
- Uses hidden frame display doors
- Dual defrosting heating pipes
- Advertising top case panel
- T5 LED lighting
- Price tag covers
- Adjustable shelves

HUSSMANN WATERLOOP SYSTEM

The Waterloo system is to build a single refrigeration cycle on the single showcase, rejection the heat and control the temp. for the single showcase.

- A small compressor unit
- With Controller
- Power module
- Refrigerant pipes inlet / outlet
- Chilled water pipes inlet / outlet
(Temp. range can be adjusted according to load)

INTERACTIVE KIOSK

Better customer experience with Panasonic Interactive Kiosk.

Panasonic Interactive Kiosk has different types and sizes that caters to different industries with different applications depending on the requirement of the client. It is customizable, easy to operate, and has many provisions that can be modified.

- Help redeploy the workforce to smarter customer retention.
- Allow customers to engage directly with the ordering system to ensure they get what they want.
- Provide faster service to increase table turnover.
- The integrated content designing tools help to create a truly unique experience for customers.

K865 15"
Interactive Kiosk

- CPU: Qualcomm 450 (4G RAM/64G eMMC) • Inclusion: 2D Scanner, Thermal Printer
- Option for Wall Mount, Counter, Stand Solution

KOT21 21.5"
Interactive Kiosk

- Core i5, 4 GB RAM, SSD128 GB, OS: Windows 10 IoT • Inclusion: QR code reader, 58mm Thermal Printer
- Option for Wall Mount, Counter, Stand Solution

KOT24 24"
Interactive Kiosk

- Core i5, 4 GB RAM, SSD128 GB, OS: Windows 10 IoT • Inclusion: QR code reader, 58mm Thermal Printer
- Option for Wall Mount, Counter, Stand Solution

KOT27 27"
Interactive Kiosk

- Core i5, 4 GB RAM, SSD128 GB, OS: Windows 10 IoT • Inclusion: QR code reader, 58mm Thermal Printer
- Option for Wall Mount, Counter, Stand Solution

KOT32 32"
Interactive Kiosk

- Core i5, 4 GB RAM, SSD128 GB, OS: Windows 10 IoT • Inclusion: QR code reader, 58mm Thermal Printer
- Option for Wall Mount, Counter, Stand Solution

KOT43 43"
Interactive Kiosk

- Core i3, 4 GB RAM, SSD128 GB, OS: Windows 10 IoT • (Portrait or Landscape)
- Option for Wall Mount, Counter, Stand Solution

KOT55 55"
Interactive Kiosk

- Large Color Touch Screen • Flexible Network Connectivity • Advance Network Security
- Send Scanned Data Via Smartphone • Versatile Scanning
