PRIME FREEZE

Whether you are cooking for your family, working towards your fitness goals, or even preparing for a gathering with friends, Prime Freeze expands the user experience range and provides fresh inspiration, making it easier to practise healthy eating.

PRIME FRESH

-3°C Prime Fresh Freezing makes food soft frozen without damage to cells at approx. -3°C, the temperature that foods just start to freeze. Bacterial growth and oxidation are suppressed to retain freshness longer.

nanoeX

Cleanliness is the heart of a wholesome meal. The PRIME+ EDITION with nanoe™ X technology reduces pesticides, deodorizes and eliminates bacteria in storages. Stay worry-free when food stays safe and hygienic.

RECIPE
Kombu Pumpkin and Cabbage Porridge
Serves 4

Main Ingredients
1 sheet Kombu (8cm) (Kombu dashi powder optional)
800 ml Water
80 g Rice (Pre-washed)
80 g Pumpkin (Diced 1.5cm)

2 leaves Cabbage (Sliced)
1 tsp Sesame oil
Salt (To taste)
White pepper (To taste)

Garnish
Furikake flakes (as topping)
Spring onion (1 stalk)

Steps

- Dice pumpkin into 1.5cm cubes and slice cabbage.
- Add diced pumpkin, cabbage and washed rice.
- Add kombu and water into the cooking blender.
- Cover and secure lid. Select "Porridge" | 45 mins. *Note: Cooking time may vary.*

EASY TO USE, EASY TO HANDLE

Cordless irons let you start ironing right away, and they offer smooth handling because there's no cord getting in the way. And when you've finished ironing, it's easier to tidy up – simply put the unit in the case.

COMFORTABLE GLIDE

The combination of a cordless iron and symmetrical multi-direction soleplate tapered at both ends provide freedom of movement for efficient ironing of all parts of clothes.

QUICK STORAGE

The unit can be stored in the carrying case without waiting for the soleplate to cool down.

RETAINING HAIR COLOUR*1

nanoe™ MOISTURE+ and Mineral improve cuticle adhesion and prevent colour fading. This also keeps your hair smooth and silky by protecting the cuticles.

DEEPLY MOISTURISE YOUR HAIR

Featuring nanoe™ MOISTURE+, this hair dryer delivers 18 times* more moisture, effectively penetrating from the surface to the inner layers of your hair, ensuring deeply moisturised, lusciously healthy hair.

ADDS MOISTURE FROM ROOT TO TIP

By releasing ultra-fine moisture particles, nanoe™ MOISTURE+ ensures your hair receives 1.9 times* more moisture. Look great with deeply moisturised hair, from the root to tip.

At the heart of Panasonic's appliances is a suite of innovative Japanese technologies exemplifying our commitment to reliability and quality. Each technology is meticulously designed to enhance your daily experiences, ensuring convenience and exceptional performance. From advanced hygiene solutions to culinary innovations and hair care advancements, Panasonic delivers appliances that transform your home into a sanctuary of comfort and sophistication.

ActiveFoam

ActiveFoam technology transforms cleaning by using Fine foam that adheres to surfaces for deep penetration of stains and dirt. This powerful formula ensures thorough cleaning without damaging delicate items. Experience a faster and more effective cleaning solution designed to enhance your household maintenance.

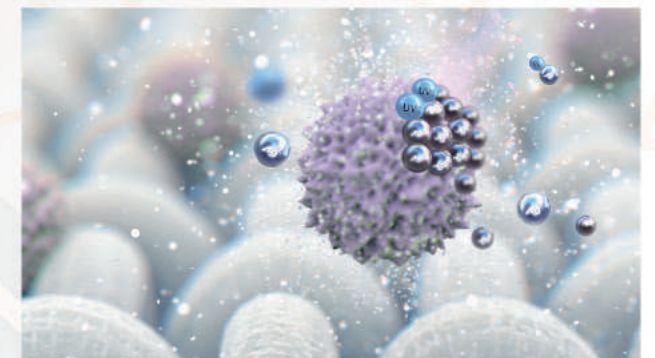

PrimeFresh

Prime Fresh technology employs -3°C Soft Freezing to maintain food at optimal freshness for up to 7 days. This keeps meats, seafood, fruits, and vegetables fresher longer while preserving nutrients without ice buildup and enhancing their natural flavours. Minimize food waste and enjoy superior nutrition with this advanced preservation system.

nanoe™ X

nanoe™ X technology utilizes hydroxyl radicals contained in water to enhance indoor air quality, promoting health and comfort. This advanced air purification system effectively neutralizes and inhibits airborne pathogens and pollutants, including mold, allergens, pollen, and hazardous substances, while also supporting skin hydration so you can experience cleaner, healthier air.

BlueAG

Panasonic's Blue AG technology utilizes the power of silver ions and blue LED light to effectively suppress the growth of bacteria in washing machines. With the ability to achieve 99.99% bacteria elimination even in cold wash cycles, this innovative feature ensures that your laundry is hygienically clean, providing peace of mind with every wash, everytime.
