Temporary Suspension of IATF 16949^{*1} Certification at Ise Plant

Tokyo, Japan – Panasonic Industry Co., Ltd. (“PID”) announced that the company received a notification from LRQA Limited, a certification body, that the IATF 16949 certification of PID’s Ise Plant (Tamaki-cho, Mie-ken) was temporarily suspended on April 3, 2025. This action is related to the findings of the external investigation committee concerning quality irregularities, which were announced in the report titled “Investigation Results on Quality Irregularities by the External Investigation Committee and Endeavors Taken at PID”, dated November 1, 2024.

PID takes this action seriously and will make every effort to promptly lift the suspension of the certification.

*1 International standard for quality management systems for the automotive industry
