

ACCESSORY

Control Panel

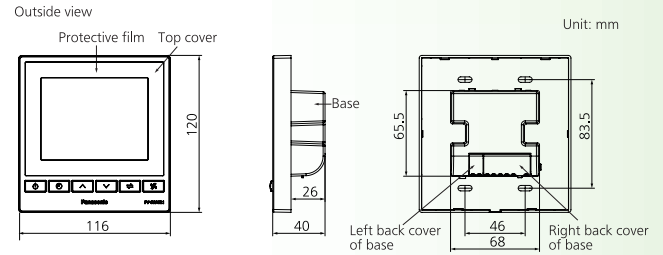

FV-SWGR1

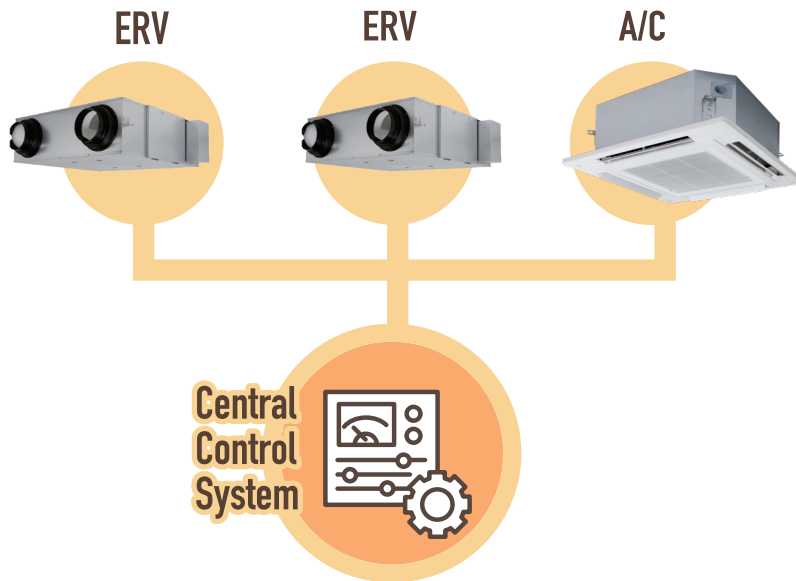

Features

- Voltage: 220V
- Rated Wattage: 2W
- Dimension: 116mm x 120mm
- Weight: 0.26kg
- LCD Panel
- Switch Button between heat exchange and ventilation

Dimensions

The control panel has built-in RS485, supports communication with the BMS (Building Management System), allowing interlocking between the ERV and the Air Conditioning system through non-voltage contact.

Common Components in BMS (Building Management System)
